

WEEK-3 DATA SCIENCE WITH PYTHON

WEEK 3– Data Visualization

WEEK 3 – Machine Learning Introduction

 **Project:** *Predict Student Performance*

 **Objective:**
Learn Regression Model (Scikit-Learn).

 **Dataset:**

 **Student Performance Dataset**

 [Download CSV \(Kaggle\)](#)

Columns:

- Hours_studied , Previous_scores , Sleep_hours , sample_question_papers_practiced
- performance_index

Tasks:

- Split data into train-test
- Apply Linear Regression
- Predict performance index
- Evaluate accuracy (R^2 or MAE)
